Instructions on how to play

- Bingo is fun and easy!!
- Cut out the individual words in the table above.
- Keep a record of what words are called out.
- You can also laminate the bingo cards to keep them crisp and reusable.
- Give every participant a bingo card.
- Draw out one 'boxed' word at a time and announce it to the participants.
- Participants must then identify the 'boxed' word on their bingo card and cover the space or cross it out with a marker
- When a participant has crossed off a straight line of words diagonally, across a row or vertically in a column, they call out "BINGO" and win!
- To play **virtual bingo**, place the document in a shared folder, then, have each participant select a random bingo card to play. Each bingo card is numbered, so use a different number for each person.
